

**JUSTIN RADUENZ**

*Ever since high school I have been interested in architecture. I am very proficient in Mathematics, Physics, AutoCad, and Microsoft products. I am a team player who understands the views of others. I have had multiple part time jobs involving construction, building supplies, and designing decks, shed, and kitchens. With the jobs I have had I have discovered that I work well with customers and that I am very goal orientated. After completing this program, I feel that I can complete any task given to me.*

**VICKIE SCHAMPERS**

*Changing careers has been a challenge, but my hard work and determination has paid off. I earned a Bachelor's Degree in Business Administration; then decided to pursue a career in architecture a few years later. I have always been interested in the construction process and knew right away it was the correct choice. Working full time while in school has enhanced my time management and organizational skills. My attention to detail and strong work ethic has contributed to my success.*

**MIGUEL TINOCO**

*My passion for Architecture began when I was a child in Mexico. My uncle was a construction worker; he took me to the job site where he was working on a Spanish style house, I loved the way the house looked, from then on I knew I wanted to pursue Architecture. My education at NWTC has prepared me well from residential to commercial, ready to work in the Architecture industry. I am a dependable, honest and hard a working person. I look forward to my new career.*

**BLAKE TITUS**

*As architectural Club President, I learned the importance of effective time management and teamwork. In the past, I have worked with construction crews doing landscaping and finish carpentry. While working for an Architectural firm over the summer, I learned how to use the 3-D aspects of AutoCAD Architecture 2008, and recently taught myself Revit and 3-D Studio Max while maintaining a 3.847 GPA. I am a highly motivated individual who will bring a passion for architecture and an interest in new architectural technology to the job.*

**DEBORAH VAN ESS**

*Returning to school as an adult with two young children was not an easy decision for me – my passion for architecture made it easier. You'll notice when you look at my resume that I have extensive work experience and stamina with each company. What I have to offer your company is all of that plus everything I've learned at NWTC. I am professionally assertive, poised, self-motivated, enthusiastic and personable. Given the opportunity, I would take full responsibility for meeting and exceeding your expectations and goals.*

**JASON WEBER**

*Construction and drafting have been a passion of mine since I began high school. Since then I have improved my skills in AutoCAD. I am an excellent team worker and very easy to get along with. In the past I have volunteered for Habitat for Humanity, and worked for Builders Supply of NEW in Green Bay. I am a hard worker and try to make a positive impact. I am always pushing myself to improve my work ethic and anything else that benefits others.*

**CHRISTINA WEINAND**

*As a child I always knew architecture would be in my future. I entered this program with no prior experience, and am now proficient in AutoCad and Microsoft. I have strong communication, organization, and time managing skills. I've enjoyed being a member of the architect club as well as volunteering for Habitat for Humanity. Working full time and balancing family life with school has been a challenge, but has prepared me for the future. I am a team player and believe I would make a great employee.*

**DANNY YANG**

*While growing up, I was always drawing and sketching floor plans and elevations. I knew I wanted a career in Architecture. In the Architectural program, I gain the knowledge to visualize how a home and a commercial building were being constructed. I have developed skills in AutoCAD, Revit, and site development. I like to be creative while problem solving and have background knowledge in construction with concrete.*

# ARCHITECTURAL TECHNOLOGY Graduates

## ASSOCIATE DEGREE

### CURRICULUM

The Architectural Technology Associate Degree is a two-year, four-semester program. Upon graduation, a student will have completed 68 credits.

#### FIRST SEMESTER

Catalog No.	Description	Credits
10-614-110	CAD Architectural-Intro	2
10-614-115	Architectural Drafting Prin	4
10-614-121	Materials-Building Const	3
10-801-195	Written Communication	3
10-804-118	Interm Algebra w Apps	4
<b>Semester Total</b>		<b>16</b>

#### SECOND SEMESTER

Catalog No.	Description	Credits
10-614-116	CAD-Architectural	2
10-614-128	Residential Design/Drafting	5
10-614-131	Structural Draft-Wood/Steel	3
10-804-196	Trigonometry w Apps	3
10-809-198	Intro to Psychology	3
	Elective	2
<b>Semester Total</b>		<b>18</b>

#### THIRD SEMESTER

Catalog No.	Description	Credits
10-614-135	Commercial Draft-Steel	4
10-614-141	Structural Draft-Concrete	3
10-614-151	Estimating-Building	3
10-614-153	Architectural Building Science	2
10-801-197	Technical Reporting	3
10-804-195	College Algebra w Apps	3
<b>Semester Total</b>		<b>18</b>

#### FOURTH SEMESTER

Catalog No.	Description	Credits
10-614-118	Commercial Drafting Practices	5
10-614-146	Systems-Mechanical	3
10-614-160	Structural Analysis	3
10-809-172	Race Ethnic & Diversity	3
	Elective	2
<b>Semester Total</b>		<b>16</b>
<b>TOTAL CREDITS</b>		<b>68</b>

#### Suggested Electives:

Land Survey/Site Development	10-607-106
Archi Mdls/Const Tech	10-614-175
Advanced Architectural CAD	10-614-116
Architectural-Sustainable	10-614-109

2740 WEST MASON STREET  
GREEN BAY WI 54907

# Architectural Technology Graduates Class of 2008

**GARY BALZA**

While attending NWTC I've learned how to proficiently produce drawings with AutoCAD, along with teaching myself how to use Revit. I am very skilled with my hands and at making 3D models. I am looking for a career that will allow me to show my skills and creativity. I am also very easy to work with. Along with attending fulltime classes, I am married, working 2 jobs, and starting an online marketing business, all while achieving a 3.5 GPA.

**JEFF BALZA**

Due to my experience as a Journeyman Pipe Fitter I have an extensive background in the mechanical and process piping field. Working in a fabrication shop I've learned the importance of productivity, cooperation and a sense of humor. That experience has also taught me how to interact with a broad spectrum of people. I am also self motivated and in most cases self taught. Recently I taught myself to use the Revit program and have dabbled with Architectural Desktop.

**ROBERT BROETZMANN**

I developed a strong work ethic and drive for excellence while growing up in my father's cabinet shop. My interest in architecture because I saw many different styles of houses while installing cabinets. Recent rough framing experience has made me knowledgeable in the construction process. Additionally, I am proficient in AutoCAD and have taken a class in Revit. This semester I am also drafting a building entirely in Revit. I will be graduating with five more credits than the program requires and hope to achieve a 3.85 GPA.

**TYLER DOBRATZ**

I take great interest in the construction of buildings, and the process in which they are designed. I've taken several classes such as Revit and Sustainable Architecture to further my ability in the development/design and construction process. My background in construction has made me more proficient in my building designs, sense I can visualize it much easier. Combined with my organizational skills and sense of humor, I will be a great team player for your firm.

**RON DOMKE**

It seems as if the years preceding my time at NWTC were well spent. I enrolled in architectural and construction classes all through high school, as well as doing commercial construction during the summers. Being in this program has taught me so much about the industry itself and team work. I am a fast learner because I enjoy what I'm taught. Determination and hard work are just a couple of things I would bring to your business.

**TRAVIS GARSKI**

Upon graduation, as a married returning adult student, I am seeking a challenging career which utilizes my experience and education. I have experience in the construction of new homes and have served five years with the Navy Seabees, where I was trained in HVAC and plumbing. Through my military experience I have developed my attention to detail as well as a strong work ethic even in strenuous and adverse conditions. I always carry a positive attitude and strive for excellence. I look forward to bringing my experience and skills learned at NWTC to the industry.

**MIKE GOULDER**

I am a person who is dedicated to his work, meets deadlines, and accepts any challenge. The Architecture program was a challenge for me. It showed me who I was and what I'm capable of achieving. Being a member of the Architectural club and Job Shadow coordinator I have developed strong communication skills with students and various firms. With my passion to succeed and attention to detail, I would be a great addition to your company.

**ADAM M. HARRELL**

Currently I am employed in the drafting dept. at a Nuclear Power Plant. I've gained great experience there working with electrical, structural, & mechanical engineers. I also have 3 years of construction experience in the agricultural and commercial field. I am trained in AutoCAD, Microstation, Bentley I/Ras, & am currently learning Revit. I'm honest, hardworking, dedicated, and would bring a positive attitude into any team oriented work environment.

**TIMOTHY HUGHES**

Architecture has always been an interest of mine. I enjoy analyzing structures and how they're put together. My education at NWTC has escalated my interest and knowledge greatly with courses such as Sustainable Architecture and Revit. I have three years of construction experience with foundations, site work, and grading. Other activities I have enjoyed participating in are Habitat for Humanity and the NWTC Architectural Club.

**TYLER JORGENSEN**

Growing up in a family of designers, I have always had a passion for design. After taking different architecture classes in high school, I decided architecture was where my passion lied. Attending NWTC to advance my career in architecture, I maintained a 3.87 GPA while gaining experience and leadership skills as the lead home designer for a residential firm. Through my experiences as a designer, I have been able to become proficient in AutoCAD and Revit. I have also learned many valuable life skills, such as time management and communication. The skills I have learned helped me develop a hard work ethic and professionalism that I will carry throughout my career.

**MAISIE LIN**

I am a returning adult with a Bachelors degree in Interior Design. Efficiency in AutoCAD, with space planning, color renderings and good on presentation boards of selecting finished materials. I have worked in a local newspaper company as Ad designer, working with colors, layout and large scale advertisement promotion project. NWTC Architecture program, had fulfilled me with building construction knowledge of how structure works together as a whole. I am a hardworking, reliable person and ready for a big challenge of my life. I would be your great asset with my fluent in Chinese language, for your company to exploring the Asian Architecture market.

**BRITTANY WINGSTEDT-LUDWIG**

I have always been interested by the beauty of architecture. While attending school I took every architectural class I could, to prepare myself for college. When I began my classes at NWTC I saw my dream start to unfold. As graduation approaches my enthusiasm to become employed as an architectural technician is escalating. I would be a valued employee because I am very creative, detail oriented and I strive for excellence.

**JOSHUA LUEDERS**

My interest in Architecture began in High School, where I took three years of architectural related courses. After graduating I decided to continue my education at NWTC, enrolling in their architectural program. Since then my knowledge using AutoCAD and Revit have expanded greatly. My experiences as a CAD Intern at KI and my role as a Co-Activity Coordinator for the architectural club have also prepared me for real world experiences. I'm motivated, hard working, and dependable. I look forward to further expanding my knowledge in architecture and hope to one day become a registered architect.

**CHELSEA LUKES**

Architecture first spiked my interest when I began touring the Showcase of Homes. While attending NWTC, I've learned to become efficient in AutoCAD, Word, Excel, and Power Point. I have also developed skills to be an organized and reliable team player. After completing my first year of Architecture, I was fortunate to gain more experience by working as an intern for a hotel millwork and casework company during the summer and throughout my second year of school. I'm looking forward to all the new experiences that life has to offer.

**CHRISTOPHER MARTEN**

As a husband, and father of two, I felt that I needed to further educate myself to better support my family. Spending ten plus years in the construction, design, and materials supply industry helped guide me to a continued education at NWTC in the Architectural Technologies program. My experience started at the local lumberyard in my hometown, to contractor sales and the working for a log home manufacturer. I am very well rounded and can accomplish anything I put my mind to.

**JOHN MATERNOSKI**

Engineering, construction, and art have always intrigued me, so I decided to put the three of them together, and pursue a career in architecture at NWTC. My experiences in Revit and AutoCAD, as well as hands on experience gained through the program and as an Architecture Club officer, have all proved to me that architecture really is my passion. It is because of this passion that I plan to further my education at a four-year college to obtain a Bachelor's Degree, eventually pursuing my dream of becoming a commercial architect.

**BRIAN MEFFERD**

Having a passion for Architecture, I took many related classes offered in high school. In Spring of my Junior year, I obtained a drafting and designing job at a local lumber supply company. I continued to gain experience with this company while earning my Architectural Technology Degree. My goal is to improve my life, as well as the lives of others. Upon graduation, I look forward to taking my creativity, experience, and passion for designing to new and upcoming challenges.

**ADAM PAMPERIN**

During my time at NWTC I have learned how to manage my time and priorities. I have also become learned to work well in a group as well as individually. With my past experience in Data Center infrastructure I have learned the importance of planning ahead for other professions such as electrical and HVAC. I now look forward to finding a career that will allow me to work other fields and continue my life long learning.
