

ATK “Force on Force” Instructor

This course is the next generation in scenario and simulation training, preparing instructors to train their personnel using accelerated learning methods and technologies that are simple to understand and use, yet take reality based training to a new more efficient and effective level. Instructors will be certified to use ATK “Force on Force” Non-lethal Training Ammunition and Protective Gear, and can be re-certified in other approved scenario / simulation courses. These methods of reality based instruction will allow attending instructors to create realistic training that maximizes hands-on learning and the expectation of complete success with continued focus on survival in the street.

Who should attend: Law Enforcement and Military -

- Use of Force Instructors
- Field Training Officers / Field Training Coordinators
- First Line Supervisors
- Managers responsible for policy development / Internal Affairs

Topics Covered:
