

## **WHY SOME NWTC PROGRAMS ARE PARTIALLY ELIGIBLE FOR FEDERAL FINANCIAL AID New Clock-to-Credit Hour Conversion Requirements**

*Effective Fall 2023*

The U.S. Department of Education has changed how credits are recognized for financial aid purposes for non-associate degree programs that do not lead to an associate degree.

Due to the new federal “clock-to-credit hour” conversion requirements, Wisconsin Technical College System students who are enrolled in a technical diploma that does not lead to an associate degree may not be eligible to receive full federal financial aid funding.

Below are NWTC programs partially eligible for federal financial aid due to the new regulations:

- CNC Machinist – **31 of 32** program credits are financial aid eligible.
- CNC Technician – **61 of 62** program credits are financial aid eligible.
- Dental Assistant – **30 of 34** program credits are financial aid eligible.
- Electrical Power Distribution – **31 of 33** program credits are financial aid eligible.
- Gas Utility Construction and Service – **30 of 33** program credits are financial aid eligible.
- Medical Assistant – **29 of 33** program credits are financial aid eligible.
- Metal Fabrication/Welding – **32 of 33** program credits are financial aid eligible.
- Practical Nursing – **26 of 31** program credits are financial aid eligible.
- Therapeutic Massage – **21 of 27** program credits are financial aid eligible.
- Welding – **31 of 32** program credits are financial aid eligible.

About the clock-to-credit-hour conversion formula

The clock-to-credit-hour conversion formula determines if the program includes the minimum number of credit hours to qualify as an eligible program for Federal Student Aid purposes. The formula also determines the number of Title IV (Financial Aid) credit hours associated with each class that an institution can use to determine a student’s enrollment status during the program.

How has the formula changed?

Previously, the formula required colleges to use a ratio of 37.5 in-class clock hours to each semester credit hour. Colleges could also include out-of-class hours in the calculation if the in-class hours met a ratio of 30 clock hours to one credit hour.

Under the new regulations, the clock-to-credit conversion formula no longer includes any out-of-class hours. The revised formula for determining the number of financial aid credits in each course is the total number the course’s clock hours divided by 30. The result is the course’s number of total credits that is used for calculating financial aid eligibility.

## Clock to Credit Hour Conversion

### Program credits and Financial Aid Eligible Credits Comparison

#### CNC Machinist

Class	Program Credits	Financial Aid Credits
31804304 - Vocational Math A	1	1
31420341 - Machine Tool/CNC Set-Ups	2	2
31421352 - Blueprint Rdg/Sket-Mach 1	2	2
31420366 - CNC/Machining Fundamentals 1	4	4
10890101 - College 101	1	1
10420100 - CNC Interface Methods	1	0
31420363 - CNC Milling and G-Code	2	2
31420367 - CNC/Machining Fundamentals 2	4	4
31420364 - G-Code and CAM	2	2
31804305 - Vocational Math B	1	1
31420368 - CNC/Machining Fundamentals 3	4	4
31421362 - Blueprint Rdg/Sket-Mach 2	2	2
31420369 - CNC/Machining Fundamentals 4	4	4
31420365 - Intro to CNC Turning	1	1
31422359 - Metallurgy and Cutting Tools	1	1
Total Credits	32	31

### CNC Technician

Class	Program Credits	Financial Aid Credits
31804304 - Vocational Math A	1	1
31420341 - Machine Tool/CNC Set-Ups	2	2
31421352 - Blueprint Rdg/Sket-Mach 1	2	2
31420366 - CNC/Machining Fundamentals 1	4	4
