Dear K-12 Partners,

It is with great pleasure that we share the “NWTC Pathways to College” annual report, highlighting some of the impressive dual credit programming data from the 2022-2023 academic year. You may have noticed that the report took a hiatus in 2021-2022. That pause was due to significant staff transitions within our college and on the Early College team (formerly called the K-12 Relations team).

Since the last publication of this report two years ago, high school students in the Northeast Wisconsin region have earned unprecedented levels of dual credits from Northeast Wisconsin Technical College (NWTC). The number of students earning dual credit with NWTC rose from 4,605 to 5,550. Further, those students earned over 28,000 college credits in just one year! College credits earned in high school translate to savings for students and families. In 2022-2023, students earned free college credits valued at nearly \$4,700,000.

These successes are just a snapshot of what is included in this annual report. Importantly, the successes exist because of the strong partnerships and collaborations between NWTC and K-12 school districts. The Early College team will continue working with each school to identify the best dual credit options for your students. We are committed to all students engaging in education that leads to high-wage jobs and meets industry needs. We want students to be proud to be college students while still in high school. We strive for students to experience a cohesive program of courses that lead to a certificate, diploma, or degree.

Thank you for being a strong collaborator. On behalf of NWTC, we hope that you find much to celebrate in the following pages. As always, there is an open invitation to reach out to the Early College team at any time. Our contact information is available on the inside back cover.

Sincerely,

Dr. Miranda Schornack
Manager of Early College

NWTC Dual Enrollment K-12 Partnerships

DUAL CREDIT IN HIGH SCHOOLS

Partnerships between NWTC and area school districts allow students to earn both high school and college credit simultaneously through a variety of programs. Over the last five years there has been striking growth in the number of students earning NWTC dual credit, and subsequently the number of credits earned. Researchers have identified numerous advantages to earning dual credit including cost savings, early entry to career pathways, decreased college remediation, reduced time to degree completion and stronger postsecondary outcomes.

NWTC DUAL CREDIT PARTICIPATION

High School Student Dual Credit Participation by Race

High School Student Dual Credit Participation by Gender

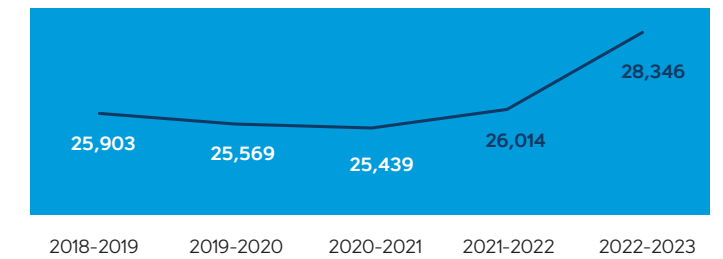

These percentages are based on the total # number of dual credit students in the NWTC district per year.

DUAL CREDIT TYPES

Transcribed Credit

Learn NWTC curriculum from high school teachers who have been trained by NWTC faculty.

Start College Now (SCN)

Learn college curriculum from NWTC industry-expert instructors.

Distance Learning (SCN)

NWTC faculty offer courses in a virtual format, ensuring flexibility for students to align them with their school schedules.

Youth Apprenticeship

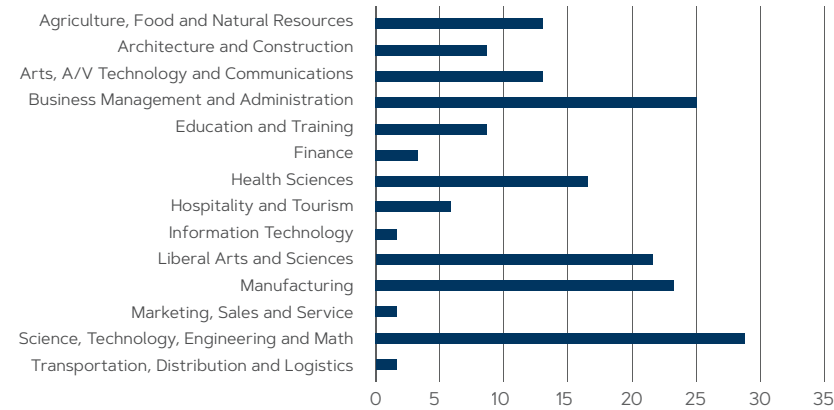

Receive industry-related classroom training from NWTC instructors; you may also be assigned to work-related placements.

Advanced Standing

Take high school classes, taught by high school teachers, that are determined to be a "close match" to NWTC coursework.

Career Prep

Career Prep is designed to enhance the technical and academic skills of high school students and to provide expanded opportunities for transition into post-secondary education.

The framework for this initiative has been the federal Carl D. Perkins Vocational and Technical Education Act of 2006 (P.L. 109-270).

K-12 Professional Learning Activities

NWTC is pleased to work with our K-12 partners to create robust opportunities through the support of the Career Prep program. With Career Prep options, we can work together to prepare Career and Technical Education (CTE) students for a seamless transition from secondary to post-secondary education. Articulation agreements, secondary professional training opportunities, curriculum sharing meetings, career exploration events and relevant involvement of our business and industry professionals create unique pathways for CTE students to develop college and career readiness. Some of the events focused on this initiative are listed below.

Faculty Mentors/Teaching and Learning Center (TLC)

High school teachers that partner with NWTC to teach transcribed credit coursework can connect with NWTC faculty mentors. These mentors will meet with high school teachers at the Spring Summit event and be available to answer questions and concerns that might develop when delivering NWTC coursework. The NWTC faculty mentors are available to provide the needed support to ensure coursework rigor and duplication is maintained.

The purpose of the Teaching and Learning Center (TLC) is to ensure student success by improving instruction, services, student centered instructional practices through education, application, and coaching. The TLC is a consultative body, inspiring continuous professional development leading to improvement in curriculum design, delivery, technology application, and assessment practices. The TLC promotes a culture of lifelong learning and commitment to effectiveness in teaching and learning and is guided by the college principles of diversity, accessibility, and academic integrity. The TLC is a resource to our K-12 partners as they look to increase student engagement, enhance technology, explore assessment strategies and more. . .

Professional Learning Day

A Professional Learning Day is hosted for secondary professionals. The agenda for the day includes labor market trends, business/industry panels, NWTC updates and tours, exposure to college admission, and recommendations on how to enhance student preparedness for post-secondary instruction.

Train the Trainer Events

Training sessions exist for our secondary instructors to spend extended time periods in NWTC labs, working side by side with our faculty instructors. These opportunities often afford the opportunity for secondary staff to become refreshed in occupational program areas, enabling them to teach transcribed coursework at their high school.

Spring Summit

An advantage of offering transcribed credit coursework at your high school is the up-to-date curriculum that is offered through your relationship with NWTC. NWTC connects with Program Advisory Boards, which include business/industry professionals who make recommendations on the necessary modifications required for NWTC course offerings to remain cutting edge. Because of the continuous improvements made to curriculum, NWTC requires an annual renewal of transcribed credit agreements. We strongly encourage the mandatory participation of our transcribed credit instructors at the Spring Summit. The Spring Summit will provide secondary instructors an opportunity to learn more details about transcribed credit, surrounding policies, and allows a venue for curriculum sharing.

These data show unduplicated course agreements per high school.

Transcripted Credit Agreements

Advanced standing courses are taught by high school teachers using high school curriculum determined to be a close match to an NWTC course. A student must earn a "B" or better in the course to receive advanced standing. Advanced standing courses may allow a student the opportunity to skip an introductory level course in their post-secondary program and advance to the next level. Advanced standing agreements are transferable to all schools within the Wisconsin Technical College System.

Transcripted credit courses are taught by high school teachers approved by NWTC. NWTC curriculum and assessment methods are used. Student grades are posted to an official NWTC transcript. Students must earn a "C" grade for the course in order to receive NWTC credit, as reflected on their NWTC transcript. Transcripted credit agreements are transferable to other Wisconsin technical colleges and may transfer to four-year universities.

NWTC Career Pathway

Certificates

The Career and Technical Education (CTE) Incentive Grant program was established on December 11, 2013, by **Wisconsin Act 59**. Grants from this program incentivize school districts to offer high-quality career and technical education programs that mitigate workforce shortages in key industries and occupations.

Wisconsin Technical College system adds to the identified business and industry certifications by offering Career Pathway Certificates, which also qualify for CTE Incentive Grant funding. Career Pathways are defined as a series of connected education and training strategies and support services that enable individuals to secure industry relevant certification and obtain employment within an occupational area and to advance to higher levels of future education and employment in that area.

The NWTC Career Pathway Certificates that high school students historically enroll in are listed below:

Start College Now

START COLLEGE NOW

Start College Now allows qualified high school juniors and seniors to enroll in NWTC coursework, taught by NWTC faculty. Wisconsin Statute 38.12(14) describes the full requirements and important details about applying for Start College Now. Please note that there are deadlines for students to apply for Start College Now. Students looking to take courses in the fall semester must turn in the application to their high school counselor each year by March 1. High schools must send the completed fall applications to NWTC by May 15. For spring semester, students must submit their applications to their high school counselor by October 1. NWTC must receive the completed spring applications by November 15.

START COLLEGE NOW 2022-2023

Distance Learning

DISTANCE LEARNING

Distance Learning brings NWTC classes, taught by NWTC faculty, to high schools across the region. Distance Learning courses occur during the K-12 schedule: courses are offered on a semester basis and during the school day. Starting in the fall of 2023, courses will be live-streamed via Microsoft Teams and NWTC instructors will use the learning management system Canvas. Schools can enhance their curriculum by providing courses not normally available at their school.

Youth Apprenticeship

It has been a great way to experience a taste of what college has to offer! The teachers have been great and I feel better prepared educationally to enter college.

Melanie Schleis

Luxemburg-Casco High School

The Youth Apprenticeship program is a part of a statewide School-to-Work initiative managed through the Department of Workforce Development. This one or two year elective program designed for juniors and seniors, combines academic and technical instruction with mentored on-the-job learning. The Youth Apprenticeship Program is managed by different consortiums and its availability differs by school district. Instructional coursework affiliated with this program can take place through secondary coursework, transcribed credit coursework or coursework offered directly at the Technical College.

My experience has been great. I have taken online classes to help me discover what I will continue to pursue in furthering my education after high school. I loved being able to go at my own pace and allowing myself to be productive and efficient.

Aubrey Bintz

Coleman High School

On April 30th we recognize Dual Credit Day for the State of Wisconsin.

All current dual credit students in the NWTC district will be emailed a QR code which allows them to enter in a drawing. A total of 4 teachers and 30 Dual Credit students are randomly selected to win a prize!

For additional information, visit [nwtc.edu/Dual Credit](http://nwtc.edu/DualCredit)

The Northeast Wisconsin School of Innovation (N.E.W.) is a public charter school within Green Bay Area Public Schools (GBAPS), serving students grades 7-12. Northeast Wisconsin Technical College (NWTC) and GBAPS partner to ensure strong vocational education by incorporating career pathways into learning experiences.

Since fall 2022, N.E.W. School of Innovation has been located on NWTC's Green Bay Campus. This collaboration provides N.E.W. students with a unique opportunity to engage in competency-based education while exploring career options from NWTC faculty.

Partnership highlights:

- Students in grades 10 through 12 can participate in dual credit courses and early career exploration to help envision their career path after graduation.
- Students in grades 7 through 9 have opportunities to explore career pathways through hands-on activities throughout the school year.
- The N.E.W. Academy is a track available to GBAPS seniors to meet their graduation through an alternative pathway. The Academy provides personalized learning plans for each student based on their transcripts.

Please visit the Green Bay Area Public Schools website at newinnovation.gbaps.org

They are very helpful because they give you experience. They helped me figure out what I wanted to do as a career.

Ben O'Brien
Bonduel High School

It's been a great experience in giving me a glimpse into what a college class could be like. I really appreciate the resources and materials provided.

Ella Griepentrog
Pulaski High School

I have been able to learn a lot by taking dual credit classes through NWTC, and I appreciate the opportunity to start obtaining college credits while still in high school.

Charli Broderick
Coleman High School

As an instructor of dual credits, I find it highly beneficial to prepare the students for post secondary.

Adam Wolf
DePere High School Teacher

- A: Total High School Grads -** The total number of high school graduates, including HSEDs and GEDs, reported by DPI.
- B: Total Enrolled in WTCS -** The total number of high school graduates that enrolled in a WTCS District.
- C: Total Enrolled in Same District -** High School graduates that enrolled in the same WTCS District as the High School they graduated from.
- D: Total Enrolled in Other District -** High School graduates that enrolled in a different WTCS District than the High School they graduated from.
- E: Percent Enrolling in Same District -** The percent of high school graduates enrolling in the same WTCS District as the High School they graduated from.

Disabilities Services

Disabilities Services of Northeast Wisconsin Technical College (NWTC) offers assistance to individuals with disabilities at all NWTC sites. We offer a wide range of services and disabilities to assist students in reaching their educational goals. The Disabilities Services staff will help guide students through their educational experience at NWTC by providing case management and support services. We strongly encourage students who have a disability to communicate their needs to us and use our services. NWTC Case Managers work with high school students who have disabilities and high school staff to help students as they transition to NWTC. Visits are made to district high schools, when requested.

Do you have questions about NWTC Transition Services?
 Contact the [Transition Services Specialist](#) for your area.

Career and Technical Education Instruction, Data Analytics, Echocardiography, Individualized Technical Studies-Journeyworker, Justice and Community Advocacy, Substance Use Disorder Counseling, Telecommunications Engineering Technician, Telecommunications Field Technician, Winemaking (Enology), X-Ray Service Technician

Shared with Lakeshore Technical College: Ophthalmic Medical Assistant, Pharmacy Technician

Report Definitions

Number of Academic Year Graduates (2021-2022): Count of program graduates as of survey date.

Percent Employed: Portion of survey respondents available for employment reporting full- or part-time employment approximately 6 months after graduation. * Indicates no respondent information via survey.

Percent Employed in Field: Portion of survey respondents reporting employment who have a job related to their specific program of study. * Indicates no respondent information via survey.

Median Annual Wage for Full Time Employed in Field: Of graduates reporting full-time, related jobs, this is the annualized salary of the middle graduate when salaries are ranked from low to high. * Indicates not enough wage data collected via survey.

¹ Indicates less than 30% of graduates reported

NWTC career coaches help simplify every step of the transition to college, including applying for admission, taking the Accuplacer, filling out the FAFSA, and help every step of your students transition.

For additional information, visit nwtc.edu/CareerCoach

High School Visits/Classroom Presentations

Career coaches provide information and support to students interested in attending NWTC and are able to present on the following topics:

- Differences and similarities between 2 year and 4 year colleges
- Soft skills
- Careers in demand
- Career exploration
- How to prepare for college and how to earn dual credits
- How to pay for college

Get It Done Day

Career Coaches can help students transition to college by:

- Assisting with applications to NWTC
- Facilitating Accuplacer Test
- Collecting HS Transcript
- Assisting students with next steps (paying for college, registering for classes and more)

College Goal

Students and families can get support with completing FAFSA.

Campus Preview Days

Juniors and seniors have the opportunity to explore career options available at the Green Bay Campus. Students learn about admissions, financial aid, accommodations, and career opportunities through divisional tours.

Open House

Offered twice a year, this event is an opportunity for prospective students to learn about career/program options, see classrooms and talk to instructors, and see all of what NWTC has to offer

For full list of events, visit nwtc.edu/Events

Tech Challenge

High School students compete for NWTC scholarships by participating in different competitions.

For more information, visit nwtc.edu/TechChallenge
