RN to BSN Scholarship Resource

From start to finish, a BSN student will easily spend four years and tens of thousands of dollars earning their degree and nursing credentials. Even those who begin their BSN programs as fully licensed RNs or college graduates from other fields can expect to commit a major portion of their salaries and time until graduation. Fortunately, very few students shoulder these financial burdens alone. With a little research and planning, you won't have to, either. Check out this site for information on federal student loans, nursing grants, nursing scholarships, and the scholarship database.
