Salary Grade: C

Reports To: Director, Enterprise Applications
Amount of Travel Required: As Necessary
Positions Supervised: None

LOCATION: Green Bay

STANDARD HOURS: 40 hours per week. Monday - Friday 8 a.m. to 5 p.m.; Flexibility to work evenings and weekends as needed.

MINIMUM STARTING SALARY*: \$60,449 per year

**Current benefit eligible employees will be placed within the pay range based on their current rate/range.*

Required online application available on website: www.nwtc.edu/jobs

Location: Northeast Wisconsin Technical College, Human Resources, 2740 West Mason Street, Green Bay, WI 54307-9042. All postings are considered current and available until removed from the website.

Northeast Wisconsin Technical College is committed to promoting a learning environment where employees and students of differing perspectives and cultural backgrounds pursue career and academic goals embraced in an environment of respect and shared inquiry.

The College is seeking to attract ethnically diverse instructors and staff who can inspire our increasingly diverse student population.

POSITION SUMMARY

The Salesforce Web Developer will build software solutions for the Salesforce web based application system at the College. This may also include the College website, nwtc.edu, the intranet, and other systems. System maintenance and monitoring is necessary, which requires evening and weekend work as needed. The position will be part of the Enterprise Applications team, which is responsible for all PeopleSoft environments at the College, the Website and Intranet, the Data Warehouse, and other systems.

ESSENTIAL FUNCTIONS

Reasonable Accommodations Statement

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable Accommodations may be made to enable qualified individuals with disabilities to perform the functions identified in the job description.

Essential Functions Statement(s)

- Review, analyze, implement, upgrade, and provide production support for web based applications and processes.
- Analyze current operational procedures, identify problems and learn about specific requirements
- Provide technical support to all staff and end users in the proper use of web based application systems and related products
- Work with clients to design new and improve existing procedures in support of operations
- Write detailed descriptions of user needs, program functions, and steps required to develop/modify web based applications.
- Maintain communications and positive relations between users and staff; may participate and represent at meetings pertaining to the delivery of departmental services and computing initiatives
- Work with the Webmaster and other College resources to implement best practices and to

evaluate emerging technologies that could be leveraged in the website and intranet environments.

- Identify opportunities for the application of computing and communication technologies for staff
- Assist other developers in resolution of work problems related to project specifications or programming.
- Prepare technical reports, memoranda, and instructional manuals as documentation of program development

POSITION QUALIFICATIONS

Competency Statement(s)

- Values - Demonstrate behaviors and action that support the College's values - Customer Focus, Everyone Has Worth, Passion and Inspiration, Collaboration, Emotional Intelligence, Results and Accountability, Valuing Talent and Well Being, and Ethics.
- Student Success – Demonstrate behaviors and actions that support student recruitment, retention, and student success initiatives.
- Diversity Oriented - Ability to work effectively with people regardless of their age, gender, race, ethnicity, religion, disability, socio-economic background, or job type.
- Accountability - accept responsibility and account for actions of self.
- Accuracy - perform work accurately and thoroughly.
- Active Listening - actively attend to, convey, and understand the comments and questions of others.
- Customer Oriented - take care of the customers' needs while following College procedures.
- Creative – think in such a way as to produce a new concept or idea
- Organized –follow a systematic method of performing a task.
- Problem Solving – find a solution for or to deal proactively with work related problems
- Technical Aptitude – comprehend complex technical topics and specialized information

SKILLS & ABILITIES

Education: Requires an Associate's Degree in Web Development, Software Development, or a related field or equivalent experience.

Experience:

- Experience working with the Software Development Lifecycle (SDLC)
- Experience working with source code management tools

***An equivalent combination of education and work experience may be considered.*

Computer Skills

- Experience with web development work in a Salesforce environment (Salesforce.com, Apex & VisualForce, Force.com platform) preferred.
- Experience with the AngularJS and the Spring Framework.
- Experience with HTML, XML, CSS, Javascript, Java, C#, and SOQL.
- Experience with modern JavaScript libraries such as jQuery, bootstrap, etc.
- Understanding of modern user interface concepts such as responsive web design and accessibility compliance.
- Experience with Web Services integration technologies (SOAP, WSDL, REST, etc.)
