HOW to CONTACT NWTC

You'll find web shortcuts and contact phone numbers on each page to connect you with more information.

E-mail: more.info@nwtc.edu

Phone: (920) 498-5444 or (888) 385-6982

Chat: Visit www.NWTC.edu and enter "Ask NWTC" in the search box

In Person: To find NWTC locations, visit www.NWTC.edu/directions

NWTC is over 100 years old! See our history at www.nwtc.edu/100years

YOUR SUCCESSFUL FUTURE STARTS AT NWTC

If your goal is **A GREAT CAREER,**
NEW JOB SKILLS
OR A BETTER LIFE—ACHIEVE IT
with **Northeast Wisconsin Technical College.**

- Study business, health, law enforcement, advanced technology and more.
- Choose from one-year and two-year degrees, and apply for financial aid.
- Choose a certificate to build specific skills quickly.
- For assistance choosing a program, try our free career or advising services.
- If there's any obstacle in your way, we're here to help.

Why **YOU'LL BE HAPPY** you chose NWTC

- You can find a future that's a perfect fit for you, with more than 200 career fields from which to choose.
- Small class sizes let you get to know your instructors and other students.
- Lots of free parking—hey, we want you here!
- We welcome walk-in visitors, plus our call center and web site bring NWTC services to you anywhere.
- NWTC is always in your neighborhood, thanks to online learning and regional learning centers.

**GET TECHNICAL.
GET A CAREER
at NORTHEAST
WISCONSIN
TECHNICAL
COLLEGE.**

YOU CAN get there from here.

Every day, we help people choose a direction and prepare for their careers. We walk the path with them, past every obstacle, all the way to graduation.

FIND A CAREER THAT FITS

You want a career that uses your talents and feels right. But you're not sure what's out there, and what would be a good fit. A visit to NWTC Career Services is all about career exploration, career awareness and job-seeking assistance. It's ideal for both adults and students, whether you're just starting out, dislocated or changing career fields.

What YOU CAN DO in Career Services:

- Use free tools to match your interests with careers
- Investigate details of specific occupations
- Look for jobs online
- Learn which careers are in high demand
- Improve your resume and interview skills

DID YOU KNOW?

Career Center services are free and open to the public.

About Resources and Services:
www.nwtc.edu/services

We'll help **YOU GET THE SKILLS** (and scores) **YOU NEED**

Many students need to brush up on academic skills before taking General Studies courses or starting a degree or diploma program. NWTC offers classes, seminars and self-paced resources so you have the reading, writing, math and study skills you need to succeed.

Make **BETTER CHOICES** with Advising

Decisions, decisions. Which program would be best? Degree, diploma or certificate? Full-time or part-time? In person or online?

Advising can assist you in making informed choices about your education. They can help with identifying career goals, applying for financial aid, choosing and scheduling classes and more.

Keep up with class: **TUTORING AND LABS**

If you ever have trouble meeting course requirements, help is available. Tutoring services are offered in open labs for math, writing, basic computer skills and most science courses; just drop in any time during posted hours. In other subjects, students can request a one-on-one tutor.

ADULTS are very **WELCOME**

Adults who want new skills or new careers will find lots of company—and helpful services—at NWTC. For instance:

- In the ACES Club (Adults on Course for Excellence and Success), dislocated workers and adult learners help each other succeed by sharing resources, ideas and activities.
- Dislocated worker services help individuals find resources and prepare for successful new careers.
- Non-Traditional Occupation Services promote career exploration in high-demand career fields where one gender is underrepresented.
- The Plus 50 office helps adults over age 50 transition into college and new careers.
- Single parents and divorced individuals can find expert advice to address their college challenges.

VETERANS

NWTC's Veterans Services can answer questions, connect you with resources and introduce you to the student Veterans Club. Visit www.NWTC.edu and enter "**veterans**" in the search box.

YES, YOU can afford college.

Sure, college is an investment in your future—but it can still be affordable now, with loans, grants, scholarships, work-study jobs, payment plans and more.

If you have questions or want ideas for funding your education, contact Enrollment Services. We have years of experience and lots of great tips.

For example...

Q. When should I apply for financial aid?

A. As soon as possible after January 1.

Q. Why should I apply as early as possible?

A. Financial aid funds are limited. Each year, aid is awarded until funds run out. Apply early so you won't miss your chance.

NWTC is ACCREDITED
and AFFORDABLE!

Some ways NWTC STUDENTS pay for college

▶ Financial Aid

Apply to receive (free) grants, low-interest loans and work-study jobs. Everyone who applies for an aid-eligible degree or diploma should also apply for financial aid.

How to get it: Fill out the Free Application for Federal Student Aid at www.fafsa.gov. You'll need NWTC's Title IV School Code: 005301

▶ Scholarships

Scholarships are offered through the NWTC Educational Foundation and many other public and private sources.

▶ Payment Plan

Divide tuition and book costs into easy monthly payments. There's no interest and no setup fee.

▶ Total Cost for Each Degree

To see the total cost of completing each degree, visit www.nwtc.edu and enter "cost" in the site search box.

LEARN MORE:

www.nwtc.edu/payingforcollege

CALL ENROLLMENT SERVICES:

(920) 498-5444 or (888) 385-6982

E-MAIL:

finaid@nwtc.edu

How do YOU LIKE TO LEARN?

If you've ever said "Let me try that!" you'll like hands-on learning.

Sure, we like lively classroom discussions about questions that matter. And our instructors have great real-world stories to tell. But NWTC students can also...

- program manufacturing robots
- treat ill patients
- provide concert security
- host an event that makes the evening news

...because learning hands-on helps students understand, remember and use what they've read and heard. Hands-on learning works.

Hands-on is what makes NWTC DIFFERENT.
Students and employers say it's what makes NWTC BETTER.

LEARN WHERE, WHEN AND HOW YOU PREFER

When you want to know something new, what do you do? Ask an expert? Go find some tools and a workbench? Look it up on YouTube? Check with friends? Read an article?

Whether you prefer traditional classes and labs or your home computer, NWTC has options for you, like:

- **Regional Learning Centers:** Classes, degrees and services are offered near where you live and work
- **Online courses and eTech College:** Learn online
- **Classes on videotape or DVD:** Play, learn, repeat
- **Accelerated Learning:** More independent projects, fewer class meetings
- **Self-Paced Learning:** Students study when they wish, and come to campus for assistance or assessments
- **Weekend College:** Classes on Friday nights and Saturdays
- **Certificates:** Focus on just the skills you need
- **Interactive Television:** Two-way video brings classes anywhere to you

YOUR COMFORT ZONE.

LIVE IN IT...GO BEYOND IT.

Student life at NWTC can be FULL of SURPRISES.

Expand your mind

Meet students from another country, help raise funds for disaster relief, hear national speakers, become a campus leader or compete for national awards.

Get involved

With over 30 clubs and dozens of events every year, there's always something extra going on.

Relax

Kick back with a live band, join your friends at the café, become a flag football star, or see a drive-in movie.

Come to the STUDENT CENTER!

Have extra time between classes? Want to meet up with classmates to discuss a project? On the Green Bay Campus, the Student Center offers student life, student services, and...

Welcome Center: Your all-in-one resource for registering, meeting advisors and counselors, obtaining financial aid, applying for admission and more.

Commons: Full-service cafeteria offers a variety of hot and cold selections, like made-to-order sandwich wraps, salad bar, burgers and pizza. Vending area offers meals and snacks during all campus operating hours.

Game Room: Relax with pool, ping pong, board games and more—plus lots of chairs for “sideline coaches.” Don’t forget to sign up for competitions!

Movie Lounge: Major films are shown regularly, day and evening.

Campus Buzz Café: If the smell of coffees, teas and desserts is calling you, you’re headed for the café. You’ll find lots of soft comfy chairs and unique gifts as well!

Digital Lounge: Grab a computer for recreational use and enjoy the casual atmosphere where you can relax or meet friends.

Bookstore: Come in and browse the large inventory of new and used books available at the campus bookstore—or buy online.

Library: Features more than 47,000 books, videos, and magazines; provides access to over 36,000 more online; and borrows additional materials from libraries throughout the world. More than 125 computers and 10 study rooms are also available.

Center for Global Cultures: We’ll help you succeed in your own way. Students of many cultures find support and language services at the Center for Global Cultures. You’ll also find study and gathering space, information about various cultures and news from countries throughout the world, to help all students enrich their education.

▶ **LEARN MORE:** www.nwtc.edu/studentlife

TRAVEL the world, or MEET IT HERE AT HOME.

Have an amazing college experience you’ll never forget! International study offers credits toward your degree or diploma, contacts and friendships from around the world, and insights into places and ideas that can help you succeed after graduation. Students have traveled to Mexico, China, Ghana and more. Upcoming trips include Turkey, Greece and Thailand. NWTC has more opportunities, just waiting for you.

▶ **LEARN MORE:** www.nwtc.edu/globalcultures

Get out and play

We’ve got acres of green space where students can be found playing Frisbee, running, playing soccer and more.

Get moving

With intramural sports and the Wellness Center, there’s always an opportunity to be active.

SO GO AHEAD.

**REINVENT YOUR
COMFORT ZONE and
REDISCOVER YOURSELF.**

APPLY NOW!

NEW FOR 2012:

Apply **ANY TIME** to **ANY PROGRAM**

Starting in 2012, **ALL NWTC PROGRAMS** will accept **APPLICATIONS YEAR-ROUND**.

Applying early may mean you receive more financial aid and you get your choice of available start dates. But now, if you decide in October that you want to be a nurse, go ahead and apply. Your new career can start sooner than you think!

To do:

1. Apply to NWTC a year before you want to start (or as early as possible).
2. Apply for financial aid in the January before you want to start (or as early as possible).

APPLY ONLINE: go to www.nwtc.edu/gettingstarted

TO APPLY:

1. Go to www.nwtc.edu and <click> **Sign Up**
2. Submit a one-time \$30 nonrefundable application fee.
3. Submit your high school transcript or equivalent.
4. Supply us with any test scores (ACT, Accuplacer, TABE, Compass or Asset) from the past five years.
5. Request that any colleges you attended submit your transcripts on your behalf.

You can mail items to:

NWTC – Program Enrollment, P.O. Box 19042
2740 W. Mason Street, Green Bay, WI 54307-9042

Another reason to CHOOSE NWTC: NWTC CREDITS can TAKE YOU farther!

Is a bachelor's degree in your future? Then starting at NWTC makes good sense. More than 30 colleges and universities give NWTC graduates credit toward a bachelor's degree. Even more colleges accept individual courses for transfer credit.

High school students can get a head start: Earn NWTC credits during junior and senior year of high school. That can save you money, reduce your course load in college, or get you a degree more quickly.

So NWTC is an affordable, convenient way to begin earning your degree.

▶ **LEARN MORE:** www.nwtc.edu/transfer

ASSESSMENT for PROGRAMS and GENERAL STUDIES

To help students succeed, NWTC requires a placement assessment for everyone who applies to a program or registers for a General Studies course.

The Accuplacer* assessment finds each student's reading, writing and math levels. This allows students to brush up on needed skills and start class well-prepared.

Students may register for general studies classes only after they reach the required skill level.

TAKING the Assessment:

Where:

All NWTC campuses and Regional Learning Centers offer the Accuplacer.

When:

Contact a test location for an appointment.

Bring:

Photo ID and test fee.

What if it says I'm not ready?

You may immediately use NWTC's refresher and skill development resources.

Can I skip it and register anyway?

Nope. That would be bad for you. But we'll help you prepare so you'll succeed on the test and in class. No worries.

* TABE, ACT, Asset or Compass scores can also be used.

It pays to apply early!

ALERT!

The earlier you are accepted, the earlier your financial aid is processed and the more likely you are to get your full financial aid award. AND Students are admitted on a first-come, first-served basis.

▶ NEW PROGRAM!

Environmental Engineering–Waste and Water Technology

This associate degree program is designed to meet the need for environmental engineering technicians in Northeast Wisconsin. As a program grad, you're equipped with skills in analyzing, testing, and monitoring air, water, and solid waste to ensure environmental protection and compliance while maintaining community health and safety. Typical careers include environmental engineering technician, water and waste water treatment plant and system operator, water resource specialist, and recycling coordinator.

TOTAL PROGRAM CREDITS 68

Farm Business and Production Management

As a graduate of the Farm Business and Production Management program, you have the skills needed to compete and be profitable in the ever-changing agricultural economy. You're prepared to own and operate or be employed on today's modern farms. With additional education and/or work experience, you may become a dairy herdsman, general farm manager, farm records manager, crop supervisor, livestock feeding specialist, farm equipment and facilities maintenance manager, farm service employee, and field equipment operator.

This program is not eligible for financial aid.

FIRST SEMESTER

30-090-387 Farm Record/Business Analysis	4
30-090-388 Crop Management	4

30-090-394 Farm Business Operation	4

TOTAL PROGRAM CREDITS 24

Landscape Horticulture Program

Landscape Horticulture

Professionals are needed to design, install, and maintain exceptional landscapes. As a landscape horticulture technician, you perform pencil sketching of common landscaping ideas, design landscapes, build and install hardscapes and plants, write cost estimates for labor and materials, perform ground maintenance, and safely operate landscape and construction equipment. You also have a working knowledge of the safe use of pesticides. Plus, you can propagate, grow, and sell all types of ornamental plants. Students in the Landscape Horticulture program hone their skills in NWTC's award-winning Landscape Horticulture Learning Center which is located right on the Green Bay Botanical Garden – giving students the unique opportunity for hands-on learning on a 47-acre ornamental lab with display gardens and natural areas. NWTC's Landscape Horticulture program is the only accredited program in the state of Wisconsin that is located on a botanical garden.

TOTAL PROGRAM CREDITS 68

Solar Energy Technology

The Solar Energy Technology program provides a skilled workforce of technicians who are able to assess sites, design, install, operate, and maintain solar electric and solar thermal systems for residential and commercial applications. The graduate will also be well suited to provide technical sales support to the growing renewable energy industry. Potential employment possibilities will be with existing electrical and mechanical contractors and helping them with their expanding offerings of solar energy technologies. Other possible areas of employment are with energy consulting firms, design firms and utilities. Typical careers in this field include solar electric energy technician, solar thermal energy technician, solar site assessor, and solar sales representative. With additional education and experience graduates can expand their careers to energy analyst, journey person electrician/plumber, project manager, energy engineer, or environmental consultant.

Vineyard Management (Viticulture)

Midwesterners who dream of a career in wine country don't need to migrate to California.

As Wisconsin's grape growing industry expands, business owners are looking for both employees and suppliers right here. As a graduate of the Vineyard Management associate degree, you have the skills necessary to own and operate or be employed at a vineyard as a vineyard manager or vineyard worker. You are skilled in planting, pruning, training, harvesting, gathering, sustainability, integrated pest management, and storing of grapes and other fruits.

Wind Energy Technology

The wind energy industry is the fastest growing segment of renewable energy production. The U.S. and Canadian commercial wind farms are experiencing annual growth of 25 percent. Employers seek skilled technicians for operation and maintenance activities in local wind farm settings. There is also intense demand for upper-level technicians within U.S. and international wind turbine manufacturers; these include installation technician, quality control technician, and warranty and commissioning technicians. Operation and maintenance positions remain with a given wind farm location; other technicians travel extensively with the development of new wind farms and repair/retrofitting of wind farms around the world. *A Lakeshore Technical College program offered at Northeast Wisconsin Technical College. This program is eligible for financial aid only through Lakeshore Technical College.*

Some courses in this shared program are only offered at LTC, for detailed information, call Toll-free: (888) 385-6982.

Winemaking (Enology)

Careers in the wine industry exist right here in Northeast Wisconsin. As a graduate of the Winemaking program, you're prepared for a career as a winemaker, winemaking assistant, cellar worker, or tasting room host. You're skilled in fermentation, clarification, and aging of juice and wine, lab methodologies, sanitization, quality control, winery equipment operation, grape maturity testing, and wine and must analysis. The Winemaking program offers students an internship at a local winery, offering an intense level of practical and realistic winery experiences.

Architectural Technology

Careers in architectural technology allow you to pursue your passion for designing, drawing, creating, and problem solving. Architectural technicians prepare drawings and other construction documentation for residential, commercial, and industrial buildings. As an Architectural Technology program graduate, you'll be prepared to work in many fields related to architecture and construction. These careers include building materials sales person, building systems design technician, shop drawing draftsman, structural draftsman, and residential designer or estimator. With additional education and/or work experience, you may become an architect, building inspector, senior draftsman, commercial or industrial estimator, structural engineer, specification writer, or project manager.

Civil Engineering Technology

Civil Engineering Technology graduates are prepared for careers in the engineering and surveying fields. As a civil engineering technician, you examine and interpret prints and specifications; confer with contractors and owners to enforce contract specifications, building codes, and zoning ordinances; test soils, asphalt, and concrete; perform land surveying and computer aided drafting; and observe building, highway, and utility construction. With additional education and/or work experience, you can become a civil engineer, construction superintendent, building inspector, civil designer, construction projects manager, or registered surveyor.

Solar Energy Technology

The Solar Energy Technology program provides a skilled workforce of technicians who are able to assess sites, design, install, operate, and maintain solar electric and solar thermal systems for residential and commercial applications. The graduate will also be well suited to provide technical sales support to the growing renewable energy industry. Potential employment possibilities will be with existing electrical and mechanical contractors and helping them with their expanding offerings of solar energy technologies. Other possible areas of employment are with energy consulting firms, design firms and utilities. Typical careers in this field include solar electric energy technician, solar thermal energy technician, solar site assessor, and solar sales representative. With additional education and experience graduates can expand their careers to energy analyst, journey person electrician/plumber, project manager, energy engineer, or environmental consultant.

- ▶ Web Development

Broadcast Captioning

You've read the scrolling captions for the hearing-impaired on your TV screen. The person providing instantaneous text of programs is trained in realtime transcription techniques and technology. These skills can also be used to provide Communication Access to Realtime Translation for hearing-impaired students in educational as well as public settings. If you're an excellent listener, have strong language and communication skills, are committed to accuracy and able to work on deadline, a career in broadcast captioning may be a perfect fit for your talents.

A Lakeshore Technical College program offered at Northeast Wisconsin Technical College. For information call Toll-free: (888) 385-6982. This program is eligible for financial aid only through Lakeshore Technical College.

Why it's SMART TO CHOOSE NWTC

FACT: NWTC offers programs
in most of the fastest-growing
occupations in the United States.

*(Source: U.S. Bureau of Labor Statistics
Fastest Growing Occupations)*

BUSINESS, MANAGEMENT AND ADMINISTRATION

- ▶ Administrative Professional
- ▶ Business Management
- ▶ Health Care Business Services
- ▶ Hotel and Restaurant Management
- ▶ Leadership Development
- ▶ Office Professional
- ▶ Supply Chain Management

Administrative Professional

Administrative professional is one of the fastest-growing occupations in the United States, according to federal experts. The U.S. Department of Labor expects employers to add more than 204,000 new positions by 2018, providing more job openings than in nearly any other career. As an administrative professional, you'll play an integral role in any office environment – scheduling appointments; communicating effectively in person, on the phone, and in writing; preparing agendas; taking meeting minutes; arranging itineraries; scheduling travel plans; processing mail; and using word processing, spreadsheets, presentation graphics, electronic calendaring, desktop publishing, web creation and database software. As a graduate of the Administrative Professional program, potential careers also include customer service representative, front desk coordinator, office manager, project coordinator, and virtual assistant.

Early Childhood Education

Early childhood educators are professionals who support the growth and development of children from birth to age eight in a variety of settings that include licensed group and family child-care programs, preschools, Head Start, public/private 4-K programs, and school age programs. In this rewarding and challenging field, you will design learning opportunities that build connections between the child, family and community. You will provide nurturing, safe, and stimulating environments, plan interesting experiences for children to discover and learn, and build healthy trusting relationships with children and families. If you love being with young children and want to be a part of this exciting and active career, our early childhood education program may be the right choice for you.

Individualized Technical Studies

With the growth of employment opportunities in small and mid-sized firms, employers increasingly seek workers able to take on multiple tasks and roles that cut across traditional occupational categories. With the introduction of new kinds of technologies and work processes, occupational duties and the competencies needed in the workplace are constantly in flux. To be productive and effective in today's workplace, workers may need skills and knowledge drawn from a variety of traditional disciplines. This program allows students to design a customized instructional program leading to an associate degree. The individualized program will have a specific occupational focus designed by the student in consultation with an occupational mentor, district faculty, and career advising staff.

TOTAL PROGRAM CREDITS	60

Individualized Technical Studies – Journeyworker

At a time when the workplace is continuously changing with advancing technology and flexible organizational practices, new and nontraditional skills are required of the successful worker.

The Individualized Technical Studies-Journeyworker associate degree is designed for journeyworkers from various trades who are interested in continuing their education and earning a degree customized to their career interests. Thirty-nine credits are granted toward the degree based upon completion of a Wisconsin Journey Certificate that includes 400 hours or more of instruction. With a college advisor, the journeyworker identifies the knowledge and skills required to achieve specific career goals. Existing NWTC courses become components of the journeyworker's program of study.

Certified Medication Assistant

If you are a certified nursing assistant who is employed in a nursing home and is looking to add more challenge and variety to your daily work, the Certified Medication Assistant program is for you. With the support of your employer, you will learn to administer specific medications under the supervision of the nursing staff. You'll gain the knowledge of standard practices related to administration of medications affecting multiple body systems.

This program is not eligible for financial aid.

FIRST SEMESTER

30-510-301 Certified Medication Assistant	3
TOTAL PROGRAM CREDITS	3

Dental Assistant

As a dental assistant, you work with dentists as they examine and treat patients. You may carry out a variety of laboratory, clinical, and office duties, such as patient scheduling and bookkeeping functions. While dental assistants typically work in general or specialty dental offices, you may also choose to work for insurance companies, dental lab studios, or dental supply companies. You may also find employment with federal agencies such as the Veterans Administration, US Public Health Services, the Armed Forces, or a state, county, or city health facility. Students are given the opportunity to obtain National Board Certification prior to graduation. The Dental Assistant program is accredited by the American Dental Association Commission on Dental Accreditation.

TOTAL PROGRAM CREDITS 65

Health Information Technology

This field is where health care meets the cutting edge of technology. The Bureau of Labor Statistics cites health information as one of the fastest growing occupations in the United States. Health information technicians contribute to the quality of care by collecting, analyzing, and reporting health care data. This requires knowledge of disease, treatments, computer systems, privacy/security and organizational skills. As a graduate of this associate degree program, you are eligible for national certification, and you may work in hospitals, clinics, nursing homes, mental health facilities, home health agencies, state and federal health agencies, information system vendors, insurance companies, pharmaceutical companies and private industry. Typical careers include coding specialist, release of information specialist, health information technician, insurance/business specialist, reimbursement coordinator, data quality and integrity monitor, privacy and/or security officer, data analyst, HIM supervisor, and cancer registrar. The Health Information Technology program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIM).

Medical Laboratory Technician

As a medical laboratory technician, you're a valued member of the health care team who provides clinical information for disease prevention, medical diagnosis, and treatment of patients by processing specimens and performing laboratory tests. You may also have responsibilities for information processing, training, and quality control monitoring. While most clinical laboratory technicians work in hospitals or clinic labs, you may also choose to work for veterinary laboratories, industrial labs, insurance companies, research facilities, environmental labs, or public health labs. The Medical Laboratory Technician program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences. Program graduates are eligible to take the Medical Laboratory Technician certification exam through the American Society for Clinical Pathology.

TOTAL PROGRAM CREDITS 67

Nursing Assistant

Nursing Assistant program graduates are eligible for employment in a variety of settings which could include an acute care hospital, long-term care/rehab facility, or home health agency. As a member of the health care team, the nursing assistant provides personal and daily care to clients who need assistance. Why choose the Nursing Assistant program at NWTC? Success – more than 98 percent of NWTC Nursing Assistant graduates pass their written competency test on their first attempt. And the number of NWTC graduates who pass the skills test is higher than the state of Wisconsin average. Quality – many students are offered employment during their clinical experience. Expertise – the Nursing Assistant faculty all have extensive work experience in taking care of elderly clients. *This program is not eligible for financial aid.*

FIRST SEMESTER

30-543-300 Nursing Assistant	3
------------------------------	---

TOTAL PROGRAM CREDITS 3

DID YOU KNOW?

NWTC is among the top 10 percent of community colleges in the U.S. for helping students learn, graduate and succeed, according to the Aspen Institute. There is a passion for excellence college-wide that continues to drive graduates to excel in their fields. NWTC Health Sciences graduates consistently perform above the national average on board exams required for employment—the same board exams administered to four-year university students.

Nursing-Associate Degree

As a nurse, you make a difference in the lives of your patients. You plan, provide, and evaluate patient care. You act as a liaison between physicians, other health care workers, and the patient. You also supervise other health care providers. Why choose the ADN program at NWTC? Quality – NWTC ADN graduates take the same national licensing exam that graduates from four-year colleges and universities do, and NWTC graduates consistently score above the national average. Success – NWTC nursing graduates report greater than 90 percent job placement as RNs within six months of graduation. Expertise – classroom, lab and simulation instruction, extensive clinical experience at area hospitals, extended care facilities and clinics, and service opportunities like work at the N.E.W. Clinic at NWTC all provide hands-on patient care experience that helps make NWTC graduates effective on the job.

Radiography

Radiography is an exciting and challenging field involving the use of highly sophisticated equipment to create radiographs – the anatomical images that are used by physicians to diagnose disease. Radiographers have direct patient contact in clinic and hospital settings and are valuable members of the primary health care team. A graduate of the Radiography program can choose a career in a variety of health care settings including clinics, hospitals, and private practice physician offices. Graduates of the program are qualified to take the American Registry of Radiologic Technologist Certification Examination. Career advancement opportunities exist in additional imaging modalities, education, administration, as education/application specialists, sales representatives, and technical advisors.

Early Childhood Education

Early childhood educators are professionals who support the growth and development of children from birth to age eight in a variety of settings that include licensed group and family child-care programs, preschools, Head Start, public/private 4-K programs, and school age programs. In this rewarding and challenging field, you will design learning opportunities that build connections between the child, family and community. You will provide nurturing, safe, and stimulating environments, plan interesting experiences for children to discover and learn, and build healthy trusting relationships with children and families. If you love being with young children and want to be a part of this exciting and active career, our early childhood education program may be the right choice for you.

TOTAL PROGRAM CREDITS 64

Students enrolled in either of the Associate Degree Criminal Justice programs planning to become certifiable must complete core criminal justice courses for the program within three years. The clock starts for a college certification track student on the first day the student enters into a core criminal justice course.

Criminal Justice – Law Enforcement

Graduates of this two-year program are prepared to meet the rewarding challenges of the police profession, including criminal investigation, traffic and criminal law, patrol procedures, crime scene practices, and use of force and driving skills. This program offers the flexibility to graduate with an associate degree in criminal justice or be certifiable to become a law enforcement officer. The certifiable “track” is recognized and endorsed by the state of Wisconsin Department of Justice Training and Standards. Typical careers in this field include police officer, deputy sheriff, DNR officer, state trooper, military law enforcement officer, private investigator, and correctional officer as well as careers in corporate security, loss prevention, U.S. customs, transportation security administration, and border patrol.

TOTAL PROGRAM CREDITS 65

Students enrolled in either of the Associate Degree Criminal Justice programs looking to become certifiable must complete core criminal justice courses for their program within three years. The clock starts for a college certification track student on the first day the student enters into a core criminal justice course. These courses must be completed successfully within the 3-year time frame before a DOJ transcript can be submitted.

Criminal Justice – Law Enforcement Academy

Students learn the many skills of modern-day law enforcement in this full-time, 13-week program designed to produce thoroughly competent and confident officers. As a graduate of the Academy, you begin your career with an unparalleled level of professionalism as well as the ability to confront threats of terror to our homeland security. Your career opportunities include police officer, deputy sheriff, DNR officer, state trooper, military law enforcement officer, and private investigator. This 592-hour program is designed for individuals with an associate degree in criminal justice, 60 college credits at an associate's degree level or higher, or current employment with a sponsoring law enforcement agency.

This program is not eligible for financial aid.

FIRST SEMESTER

30-504-337 Policing in America	1
30-504-338 Legal Context	1
30-504-339 Tactical Skills	3
30-504-340 Relational Skills	3

TOTAL PROGRAM CREDITS	2

Fire Protection Engineering Technology

If you want to make a difference in your career by keeping our communities safe from the danger and destruction of fire, consider a future in fire protection engineering technology. In this exciting field, the principles of science and engineering are used to protect people and their environments from the devastating effects of fire and smoke. To safeguard our homes, buildings, and businesses, highly-skilled professionals are needed to design, install, and service automatic sprinkler, fire alarm, and special hazard fire suppression systems. Typical careers for graduates of the Fire Protection Engineering Technology program include fire protection systems designer, fire protection equipment sales representative, fire protection systems installer, and industrial safety technician.

Judicial Reporting

You've seen the high profile trials with a person keying the testimony into a stenograph machine or read the scrolling captions for the hearing-impaired on your TV screen. The person recording the spoken word at speeds ranging from 180 to 225 words a minute is a judicial reporter. If you're an excellent listener, have strong language and communication skills, and are committed to accuracy and confidentiality, a career in judicial reporting may be a perfect fit for you. A Lakeshore Technical College program offered at Northeast Wisconsin Technical College. For information call Toll-free: (888) 385-6982. This program is eligible for financial aid only through Lakeshore Technical College.

Applied Engineering Technology

In today's competitive environment, there is a need for technicians and team members with specialized skills in a variety of manufacturing areas including safe work practices, electromechanical, the manufacturing process, communication and performance in teams, lean manufacturing, business ethics, and finance. As an Applied Engineering Technology graduate, you'll be prepared for entry-level process team member or operator careers.

FIRST SEMESTER

10-420-171 Machine Tool Processes 1	1
10-442-150 Machine Fabrication 1	1
10-449-111 Manufacturing Safety	3
10-620-100 Fluids 1: Basic Pneumatics	1
10-620-101 Fluids 2: Basic Hydraulics	1
10-620-105 Rigging Systems 1	1
10-664-100 Automation 1: Control Logic	1
10-664-101 Automation 2: Motor Control	1
10-801-136 English Composition 1	3
10-809-198 Intro to Psychology	3

SECOND SEMESTER

10-196-199 Business Ethics	3
10-420-172 Machine Tool Processes 2	1
10-442-151 Machine Fabrication 2	1
10-623-156 Manufacturing Processes	2
10-664-102 Automation 3: PLC	1
10-804-118 Interim Algebra w Apps	4
10-809-195 Economics	3
Elective	2

THIRD SEMESTER

10-196-189 Team Building/Prob Solve	3
10-620-121 Mechanics 1: Basic	1
10-620-122 Mechanics 2: Intermediate	1
10-620-140 Machine Wiring and Safety	1
10-605-158 Power Electronics 2: Drives	1
10-620-161 Power Electricity 1: Motors	1
10-620-162 Power Electricity 2: Motors	1
10-660-104 DC 1: Introduction	1
10-801-197 Technical Reporting	3
10-806-143 College Physics 1	3

FOURTH SEMESTER

10-101-184 Business Finance/Budgeting	3
10-182-110 Lean Operations Mgmt	3
10-623-157 Process Instrumentation	3
10-809-103 Think Critically & Creatively	3
10-809-172 Race Ethnic & Diversity	3

TOTAL PROGRAM CREDITS 64

Automation Engineering Technology

As a graduate of the Automation Engineering Technology program, you'll be ready to work with integrated machine systems that involve industrial automation, robotics, mechanics, computers, industrial communications and/or electronics technology. Your potential career opportunities include controls designer, automation technician, controls technician, engineering technician, controls engineer in training, and automation engineer in training.

FIRST SEMESTER

10-620-100 Fluids 1: Basic Pneumatics	1
10-620-101 Fluids 2: Basic Hydraulics	1
10-620-140 Machine Wiring and Safety	1
10-660-104 DC 1: Introduction	1
10-660-105 DC 2: Circuits	1
10-664-100 Automation 1: Control Logic	1
10-664-101 Automation 2: Motor Control	1
10-804-118 Interim Algebra w Apps	4
10-809-198 Intro to Psychology	3
Elective	1

SECOND SEMESTER

10-660-101 Digital 1: Logic	1
10-660-102 Digital 2: Sequential	1
10-660-107 AC 1: Properties	1
10-660-108 AC 2: Reactance	1
10-660-110 Electronics 1: Diodes-Basic	1
10-660-111 Electronics 2: Trans-Basic	1
10-664-102 Automation 3: PLC	1
10-664-103 Automation 4: PLC	1
10-664-104 Automation 5: PLC	1
10-804-196 Trigonometry w Apps	3

10-809-172 Race Ethnic & Diversity	3

TOTAL PROGRAM CREDITS 62

Electro-Mechanical Technology

Electro-mechanical technicians maintain and repair electro-mechanical equipment including drive systems, position sensors, cabling, and automatic production equipment; work with mechanical and/or electrical engineers to install and evaluate electro-mechanical systems; and build mock-ups of production equipment. As a graduate of the two-year Electro-Mechanical Technology associate degree, you're prepared for the electro-mechanical technician career as well as a number of other related professions – automated equipment technician, electronics technician, field service technician, fluid power technician, and installation technician.

FIRST SEMESTER

10-420-171 Machine Tool Processes 1	1
10-442-150 Machine Fabrication 1	1
10-620-100 Fluids 1: Basic Pneumatics	1
10-620-101 Fluids 2: Basic Hydraulics	1

TOTAL PROGRAM CREDITS 64

Electronics

(with optional Biomedical specialty)

Featuring two tracks, the Electronics (with optional Biomedical specialty) associate degree allows students to prepare for a career in biomedical or general electronics. Choose the biomedical track to prepare for a position as a technician for hospitals or medical equipment manufacturers. Choose the general electronics track to gain skills in operating, testing, maintaining, and troubleshooting electronic equipment and work with research and design engineers. Program graduates are prepared for careers such as electronic development technician, electronic maintenance technician, electronic test technician, electronics technician, and field service technician.

ALL STUDENTS COMPLETE FIRST SEMESTER

Industrial Mechanic

The complex machines in today's manufacturing environments need highly skilled industrial mechanics to install, repair, and maintain the operating condition of industrial production and processing machinery. As a graduate of the Industrial Mechanic technical diploma, you are prepared to evaluate machine performance, identify trouble areas, and repair systems. Typical careers in this field include industrial or maintenance mechanic, machine adjuster, machine assembler, machinery erector, and machinery repairer.

TOTAL PROGRAM CREDITS 34

Machine Tool – CNC Technician

As a computer numerical control technician/programmer operator, you play an important role in today's modern manufacturing environments. You set up and operate computer numerical controlled machine tools, working from blueprints and set-up sheets. You set up fixturing and tooling, produce and inspect parts, and edit CNC programs on CNC lathes and machining centers. As a graduate of the Machine Tool – CNC Technician program, you're also prepared for a career as a jig and fixture apprentice/trainee, a machinist apprentice/trainee, or a manufacturing engineering technician. With additional education and/or work experience, you may become a journey level machinist, pattern maker, mold maker, tool and die maker, CNC programmer, or machine shop foreperson/supervisor.

FIRST SEMESTER

10-103-111 Micro: Windows-Intro	1
10-804-101 Math 1-Trades	2
31-420-336 Intro to CNC Milling Operation	1

32-420-342 Multi-Axis CAM Programming	2

TOTAL PROGRAM CREDITS 69

Machine Tool Operation

In the one-year Machine Tool Operation program, you learn to operate machine tools such as engine lathes, milling machines, drill presses, and computer numerical controlled machines. Upon graduation, you have the skills needed to become a CNC operator, machine set-up operator, machine tool operator, machinist, and maintenance mechanic. You may also choose to further your career options by continuing with a second-year Machine Tool program – Machine Tool – CNC Technician or Machine Tool Technics.

FIRST SEMESTER

10-103-111 Micro: Windows-Intro	1
10-804-101 Math 1-Trades	2

DID YOU KNOW?

NWTC's Manufacturing Engineering Technology program offered on the Green Bay campus transfers into University of Wisconsin-Stout's Bachelor of Science degree in Manufacturing Engineering.

Manufacturing Engineering Technology

Professionals are needed in the manufacturing industry to assist engineering and management in the design and development of new products and in the improvement of production processes. As a Manufacturing Engineering Technology associate degree graduate, you're prepared for a career as a technologist in manufacturing engineering, industrial engineering, productivity improvement, or continuous improvement. **This unique program transfers into University of Wisconsin-Stout's Bachelor of Science degree in Manufacturing Engineering offered in Green Bay on the NWTC campus.**

This degree serves as the first two years of the bachelor's degree in Manufacturing Engineering from UW-Stout.

Prototype and Design

Highly-skilled professionals are needed in the design and engineering industry to build a variety of three-dimensional prototypes and models for use in manufacturing automobiles, toys, and other products. These professionals may also build three-dimensional models used for architecture design, mechanical design, litigation, props, special effects, and the entertainment industry. Graduates of the Prototype and Design program are skilled in model making, welding, CNC machining, industrial design, problem solving, and critical thinking. Career opportunities include product development, prototype model builder, engineering design, architectural model builder, legal model builder, props and special effects model builder, and pattern and mold maker.

FIRST SEMESTER

10-420-151 Prototype Machine Tool	3
10-606-113 CAD	2
10-614-113 2D Essentials	2
10-614-152 Prototyping-Introduction to	5
10-801-196 Oral/Interpersonal Comm	3
10-804-107 College Mathematics	3

SECOND SEMESTER

10-442-153 Prototype Metal Fabrication	2
10-606-162 Solidworks Fundamentals	1
10-606-163 Solidworks-Intermediate	1
10-606-166 SolidWorks Loft/Surface	1
10-614-122 Prototype Design	3
10-614-124 Design Visualization	5
10-804-118 Interm Algebra w Apps	4

THIRD SEMESTER

10-614-134 Engineering Models	5
10-614-138 CNC Machining-Adv	3
10-614-176 Model Finishing	3
10-801-136 English Composition I	3

FOURTH SEMESTER

10-614-143 Prototyping Solutions Advanced OR	5
10-614-139 Prototype & Design Internship	5
10-614-154 Current Prototyping Processes	3
10-614-174 Models-Machine	2
10-809-166 Intro to Ethics: Theory & App	3
10-809-198 Intro to Psychology	3
TOTAL PROGRAM CREDITS	68

Welding

As a Welding graduate, you can build and repair metal components using major welding processes used by industry. You have knowledge of blueprints, metallurgy and layout, and can weld to AWS and ASME codes. Typical careers include maintenance welders, qualified welders, structural welders, welder/fabricators and pipe welders. Other career opportunities include construction trades welder, ironworker trades welder, millwright, sheet metal trades welder, and pipe trades welder.

FIRST SEMESTER

10-804-101 Math 1-Trades	2
31-421-334 Blueprint Reading I	2
31-442-301 Welding-Cutting/Visual	1
31-442-316 Welding-Shielded Metal Arc	5
31-442-317 Welding-Gas Metal Arc	5
31-442-335 Metal Fabrication I	3

SECOND SEMESTER

31-421-333 Blueprint Reading II	2
31-422-310 Metallurgy	2
31-442-321 Welding-Gas Tungsten Arc	5
31-442-327 Welding-Flux Core	5
31-442-334 Metal Fabrication II	2
31-801-386 Communicating Effectively	1

MARKETING, SALES AND SERVICE

- Design and Graphic Technology
- Marketing
- Supply Chain Management

Design and Graphic Technology

Creative professionals are needed in the business world to produce and print publications, develop advertising concepts, and build graphic elements for websites. As a graduate of the Design and Graphic Technology program, you are ready for a wide variety of careers including desktop publisher, graphic designer, advertising assistant, commercial art worker, digital print technician, layout designer, printing support worker/customer service representative, public relations assistant, pre-press technician, and website designer.

FIRST SEMESTER

10-111-101 Macintosh-Image Editing	3
10-111-103 Macintosh-Intro	1
10-111-120 Macintosh Publishing	3
10-111-161 Macintosh Illustration	3
10-204-110 Publishing Technologies	3
10-809-103 Think Critically & Creatively	3

SECOND SEMESTER

10-111-110 Macintosh Image Editing-Adv	3
10-111-111 Visual Design 1	3
10-111-125 Graphic Reproduction Tech	3
10-111-165 Typography	3

TOTAL PROGRAM CREDITS	70

Marketing

As a graduate of the Marketing associate degree, you can perform basic marketing functions in industrial, wholesale, retail, and service areas of the business world. You are prepared for positions in sales, promotion, market research, and customer service. Career opportunities include customer service representative, marketing assistant, marketing research assistant, sales promotion coordinator, and sales representative. With additional education and/or work experience, you may become a business owner, customer service manager, insurance agent, marketing manager, promotions manager, real estate salesperson, or sales manager.

FIRST SEMESTER

10-103-121 Micro: Word-Intro	1
10-103-131 Micro: Excel-Intro	1
10-104-101 Selling Principles	3
10-104-110 Marketing Principles	3

Supply Chain Management

As a graduate of the Supply Chain Management associate degree, you are prepared for careers in all activities involved in the flow of goods – from point of origin to the point of consumption. You are knowledgeable in transportation, inventory control, Lean operations management, purchasing, international trade, customer service, logistics management, enterprise resource planning, and negotiations. Core competencies of the program include planning and organizing, decision making, continuous improvement and problem solving, coordinating and controlling processes and managing the logistics in order to manage a customer's supply chain. Typical careers in this field include claims analyst, customer service representative, dispatcher, inventory analyst, inventory control specialist, logistics technician, materials planner, master production scheduler, purchasing assistant, shipping and receiving specialist, transportation planner/coordinator, and warehouse specialist.

Civil Engineering Technology

Civil Engineering Technology graduates are prepared for careers in the engineering and surveying fields. As a civil engineering technician, you examine and interpret prints and specifications; confer with contractors and owners to enforce contract specifications, building codes, and zoning ordinances; test soils, asphalt, and concrete; perform land surveying and computer aided drafting; and observe building, highway, and utility construction. With additional education and/or work experience, you can become a civil engineer, construction superintendent, building inspector, civil designer, construction projects manager, or registered surveyor.

FIRST SEMESTER

10-606-112 Computer Apps for Technicians	1
10-606-113 CAD	2
10-607-119 Intro to Civil Engr Technology	2

TOTAL PROGRAM CREDITS 68

Electrical Engineering Technology

As an Electrical Engineering Technology (EET) graduate, you're skilled in testing, maintaining, and troubleshooting electrical and electronic devices found in machinery, computers, and communication. Typical careers for program grads include electrical/electronic development technician, electrical electronic maintenance technician, electrical test technician, electrical/electronics technician, and field service technician. You may also choose to further your education by pursuing a four-year degree. The EET program consists of two tracks: a transfer track and a general track – the transfer track graduate can transfer to a four-year bachelor's degree program in Electrical Engineering Technology.

Electronics

(with optional Biomedical specialty)

Featuring two tracks, the Electronics (with optional Biomedical specialty) associate degree allows students to prepare for a career in biomedical or general electronics. Choose the biomedical track to prepare for a position as a technician for hospitals or medical equipment manufacturers. Choose the general electronics track to gain skills in operating, testing, maintaining, and troubleshooting electronic equipment and work with research and design engineers. Program graduates are prepared for careers such as electronic development technician, electronic maintenance technician, electronic test technician, electronics technician, and field service technician.

► NEW PROGRAM!

Environmental Engineering – Waste and Water Technology

This associate degree program is designed to meet the need for environmental engineering technicians in Northeast Wisconsin. As a program grad, you're equipped with skills in analyzing, testing, and monitoring air, water, and solid waste to ensure environmental protection and compliance while maintaining community health and safety. Typical careers include environmental engineering technician, water and waste water treatment plant and system operator, water resource specialist, and recycling coordinator.

FIRST SEMESTER

10-506-146 Intro to Environmental Science 3

10-506-147 Environmental Biology 4

Manufacturing Engineering Technology

Professionals are needed in the manufacturing industry to assist engineering and management in the design and development of new products and in the improvement of production processes. As a Manufacturing Engineering Technology associate degree graduate, you're prepared for a career as a technologist in manufacturing engineering, industrial engineering, productivity improvement, or continuous improvement. This unique program transfers into University of Wisconsin-Stout's Bachelor of Science degree in Manufacturing Engineering offered in Green Bay on the NWTC campus. *This degree serves as the first two years of the bachelor's degree in Manufacturing Engineering from UW-Stout.*

Mechanical Design Technology

Mechanical design technicians apply knowledge of mechanical engineering technology to design, develop, and test new or revised machinery. Working primarily on a computer utilizing 2D drafting or 3D modeling programs, you assist product engineers by detailing sections of machine designs. As a graduate of the Mechanical Design Technology program, you're also equipped for such careers as detailer and mechanical drafter. With additional education and/or work experience, you may also become a product designer, lead designer, project engineer, or technical sales/service representative.

Nuclear Technology

The Nuclear Technology program is designed to respond to today's world and its demand for nuclear technicians. This demand is expected to remain high for years to come. The Nuclear Technology program offers the student a unique opportunity to obtain the specialized training in demand by businesses and organizations licensed to utilize radioactive materials. This program can result in starting salaries higher than many four-year degree programs. It is also an excellent springboard for a four-year degree in the high-demand field of health physics and radiation safety. Initial career opportunities frequently require travel and mobility through subcontracting firms for nuclear power refueling outages. *A Lakeshore Technical College program offered at Northeast Wisconsin Technical College. For information call Toll-free: (888) 385-6982. Some courses in this shared program are only offered at Lakeshore Technical College.*

This program is eligible for financial aid only through Lakeshore Technical College.

Auto Collision Repair and Refinishing Technician

The high-tech vehicles on today's roadways call for highly-skilled vehicle repair and refinish technicians. The Auto Collision Repair and Refinishing Technician technical diploma program prepares students to repair and refinish damaged bodies and parts of automobiles and light trucks. Emphasis is on technical training for repairing and replacing vehicle panels and automotive glass; analyzing and straightening frame and unibody damage; welding, diagnosing electronics; repairing plastics and composite materials; and refinishing. Typical careers include auto collision repair technician, auto collision refinishing technician, frame and alignment technician, unibody repair specialist, and trim and glass installer.

Automotive Technology

Highly skilled automotive technicians and specialists are needed to keep pace with the increasingly complex vehicles being manufactured for today's consumer. In the Automotive Technology program, you'll learn to diagnose and service automobiles under conditions similar to an actual repair facility. Plus, you'll develop repair facility management skills to increase your employment potential. Career opportunities for you include automotive service technician, shop foreman, parts manager, warranty claims person, repair facility owner/operator, plus all of the career opportunities offered by the Automotive Technician program.

Why it's SMART TO CHOOSE NWTC

FACT: More than 2,000 people per year graduate from NWTC and 89% of them have jobs within a few months of graduation.

Supply Chain Management

As a graduate of the Supply Chain Management associate degree, you are prepared for careers in all activities involved in the flow of goods – from point of origin to the point of consumption. You are knowledgeable in transportation, inventory control, Lean operations management, purchasing, international trade, customer service, logistics management, enterprise resource planning, and negotiations. Core competencies of the program include planning and organizing, decision making, continuous improvement and problem solving, coordinating and controlling processes and managing the logistics in order to manage a customer's supply chain. Typical careers in this field include claims analyst, customer service representative, dispatcher, inventory analyst, inventory control specialist, logistics technician, materials planner, master production scheduler, purchasing assistant, shipping and receiving specialist, transportation planner/coordinator, and warehouse specialist.

Meet NWTC'S PRESIDENT online

Dr. Jeff Rafn blogs about what's happening, what's planned, and how external events may affect you.

Check it out at www.nwtc.edu/getsocial and add a comment or question of your own!

OUR VISION

NWTC will provide the highest quality, life-long learning opportunities that are

- what you want
- when you want
- where you want, and
- how you want them

so you may continue your learning and successfully engage in a career that enhances your quality of life in a global community.

OUR MISSION

We are a two-year technical college, serving Northeast Wisconsin by providing education, training, and lifelong learning opportunities for individuals and businesses leading to the development of a skilled workforce.

Our customers stimulate the economic vitality of our district as a result of the application of skills and knowledge acquired through the completion of certificates, degrees, diplomas, and courses.

NWTC is over 100 years old! See our history at www.nwtc.edu/100years

GET TECHNICAL – GET A CAREER

Why IT'S SMART to choose NWTC

- NWTC is ranked in the top 10% of U.S. community colleges for helping students learn, graduate and succeed.
(Source: Aspen Institute College Excellence Program)
- More than 2,000 people per year graduate from NWTC and 89% of them have jobs within a few months of graduation.
- NWTC offers programs in most of the fastest-growing occupations in the United States.
(Source: U.S. Bureau of Labor Statistics Fastest Growing Occupations)
- Out of 5,000 U.S. colleges, NWTC is among the top 1% for associate degrees in Precision Production; Communication Technologies and Related Services; and Agriculture, Agriculture Operations and Related Sciences.
(Source: U.S. Dept. of Education data reported in Community College Week, June 13, 2011.)
- Our online, blended, in-person, and other flexible ways of learning will fit your busy life.
- NWTC is accredited and affordable!
