

## General Health Portal Requirements

Requirements vary between programs. For any questions regarding health requirements, contact [cbc@nwtc.edu](mailto:cbc@nwtc.edu)

### COVID-19 and Influenza Vaccination Requirements for Health Program Clinicals

#### Are these vaccinations required to attend NWTC?

No. NWTC does not require any vaccinations, including the COVID-19 or Influenza vaccinations, to enroll or attend classes on campus.

#### Why am I still receiving vaccination information if it's not required?

Some clinical partners still require COVID-19 and influenza vaccinations. The clinical sites set these requirements, which may change at any time. Students are considered guests and must follow each site's policies, including possibly using enhanced PPE (e.g., N95 masks) for unvaccinated individuals.

#### Can I be placed only at sites that don't require vaccination?

No. NWTC does not assign clinical placements based on vaccination status. Most health programs use multiple clinical sites, and requirements may differ between them or change during your rotation.

#### Is there an exemption process?

Yes. Students may request medical or religious exemptions through their Viewpoint Screening account, where instructions are provided. Some clinical partners allow NWTC to process exemptions; others manage their own.

#### What happens if my exemption is denied and I decline vaccination?

You may continue in on-campus classes, but your progression may be delayed or halted if you cannot meet clinical site requirements. Refunds will not be issued for prior coursework.

#### Will the process stay the same?

Clinical site policies can change at any time. Remaining unvaccinated risks disrupting program progression.

### CPR CERTIFICATION

Check your Viewpoint Screening portal for the specific CPR/BLS requirement related to your program. Contact [cbc@nwtc.edu](mailto:cbc@nwtc.edu) with any questions.

### RENEWAL

Certification is valid for 24 months.

### HEPATITIS B

ONE of the following are required:

**3 vaccinations** OR

**a positive antibody titer** (lab report required, numeric and reference range preferred) OR

[a signed declination waiver](#)

- If your series is in process, submit where you are in the series, and new alerts will be created for you to complete the series or titer.

- The Wisconsin Immunization Registry is acceptable documentation for your Immunizations:  
Wisconsin Immunization Registry: [\[Immunization Record Search\]](#)

#### Note for Students:

The Hepatitis B Vaccine should be administered according to the following schedule:

Vaccine 1: Birth or Anytime

Vaccine 2: at least 1 month after vaccine 1 Vaccine

3: at least 5 months after vaccine 2

## MMR

ONE of the following is required:

**2 vaccinations** (Vaccinations can be a combined MMR vaccination, however if individualized vaccinations are submitted you **MUST** submit 2 vaccinations for Mumps, 2 vaccinations for Measles and 2 vaccinations for Rubella.) **OR a positive antibody titer** (lab report required, numeric and reference range preferred) for all 3 components.

- If your series is in process, submit where you are in the series, and new alerts will be created for you to complete the series or titer.
- If the titer is negative or equivocal, you must submit a repeat series (1 MMR can be administered at any time and 1 MMR must be after titer was administered) **OR** you must submit booster and repeat titer.

#### Note for Students:

The MMR Vaccine should be administered according to the following schedule:

Vaccine 1: Birth or Anytime

Vaccine 2: at least 1 month after vaccine 1

## TETANUS

Submit documentation of one of the following:

**a Tdap vaccine administered within the past 10 years OR a Tdap vaccine administered within your lifetime AND Td booster(s) administered within the past 10 years**

## RENEWAL

The renewal date will be set for 10 years from the most recent vaccine. ALL vaccines must be provided.

## TUBERCULOSIS (TB)

One of the following is completed within the past 12 months is required:

**Baseline**

**2-Step TB Test (TST) (administered 1 to 3 weeks apart)**

**OR**

**Single Blood Assay Test IGRA (QuantiFERON Gold or T-Spot).**

If positive TB skin test, get QuantiFERON Gold, T-Spot Blood Test, or chest x-ray. If QuantiFERON Gold or T-Spot is positive, then a clear chest x-ray is required.

*For those with a history of TB disease or LTBI, an initial post-positive chest X-ray and symptom evaluation is required to rule out TB disease. Follow-up will be determined by the facility.*

### **Renewal**

Check your Viewpoint Screening portal for the specific renewal instructions and due dates related to your program. Contact [cbc@nwtc.edu](mailto:cbc@nwtc.edu) with any questions.

## **VARICELLA (CHICKEN POX)**

- ONE of the following are required:

### **2 vaccinations**

OR

**a positive antibody titer** (lab report required, numeric and reference range preferred) \*documents only stating "immune" is not sufficient

If your series is in process, submit where you are in the series, and new alerts will be created for you to complete the series or titer.

### **Note for Students:**

The Varicella Vaccine should be administered according to the following schedule:

Vaccine 1: Birth or Anytime

Vaccine 2: at least 1 month after vaccine 1

## **DENTAL EXAM**

- Submit documentation of your latest dental exam provided by your dentist.
