FAQs

Q. How long is the waitlist?

A. Wait times vary due to fluctuations in student interest. You will accept your position on the waitlist when ALL admissions items are complete. Wait times can be greater than 6 months.

Q. What if I have transfer credits?

A. A transfer review is automatically completed AFTER you have applied AND submitted your official transcripts. If you had fewer than 60 college credits at a C or higher, you must also send your high school transcript. It can take around 2+ weeks for transfer credits to be processed. If you have completed CORE nursing courses at another college, you must be in good standing and core courses are reviewed for approval by the health division. Visit <https://go.nwtc.edu/good-standing> to complete the letter of good standing.

Q. What if I don't have a 2.6 GPA or my scores are not high?

A. It is common for students to take developmental courses to ensure their success at NWTC. Your first step is to apply and send your transcripts. Once your transcripts are processed, you may need additional testing to help determine which courses to start with.

Q. How flexible is the schedule?

A. NWTC offers a part time Nursing track at the Green Bay Campus. Due to in person clinicals and labs, you can expect 2-3 evenings/week in person. Clinicals begin as early as 2-3:30pm. The part time track takes about 3 years to complete.
