

CERAMIC STUDIO NEWSLETTER

Artisan
and business center
— NWTC —
DECEMBER 2023

STUDIO GLAZE REPLACEMENT

Tin Oxide is on backorder. Tin Oxide is used to mix Eggshell (Egg), Cream Breaking Rust (CBR), and Raspberry. The backordered material is a supplier issue that we can't control.

NEW STUDIO GLAZE
OATMEAL (OAT)

While testing new glaze recipes that do not use Tin Oxide, a new glaze has been created. Oatmeal will be our new Studio Glaze that will replace Eggshell and Cream Breaking Rust.

(A Raspberry replacement is currently being tested.)

Starting January 2024, the Ceramic Studio Newsletters will arrive at the beginning of each 6-week class rotation.

MEMBERSHIP REGISTRATION DATES

Registration Opens
12/4 at 10am
for half-year and quarter-year memberships.

Register Online:
NWTC.EDU/ArtisanCenter

WINTER BREAK
