SUMMARY OF QUALIFICATIONS

- Understand and apply knowledge of electricity, electronics, and motors to industrial applications
- Effectively reads and interprets technical specifications, detail and assembly drawings, schematics, and diagrams for machine control
- Proven responsible and punctual; takes pride in work
- Experience documenting technical information through descriptive writing, sketches/diagrams, mathematical expression, computation, and graphs
- Demonstrated ability to adapt to new equipment and technology
- Effectively analyzes electrical, mechanical, and fluid control functions for proper machine programming and operation
- Experience in applying programming languages to a variety of systems

EDUCATION

Northeast Wisconsin Technical College, Green Bay, WI

Automation Engineering Technology, Associate Degree

May 2025

- Relevant Coursework: Fluids, Machine Wiring and Safety, Automation: Control Logic, Power Electronics, Discrete systems, Robotics, Servo Systems, Drive Performance

WORK EXPERIENCE

Automation Technician Intern

December 2023 – April 2024

Cameron Craig Group, Neenah, WI

- Met project schedules and provided manufacturing manager and lead project engineer with timely status reports of projects
- Reviewed installation layouts, mechanical prints, and electrical schematic drawings
- Modified existing control systems and robot software
- Performed in-house testing on control components and systems
- Performed equipment tests at vendor site as needed
- Created, modified, and troubleshot programming for ABB, Fanuc, Kuka, Motoman robots
- Maintained a strong company presence and positive working relationship with customers, subcontractors, vendors and co-workers to accomplish smooth system start-ups

Assembler and Saw Operator

December 2022 – December 2023

J and R Machine Inc, Shawano, WI

- Operated an automated saw
- Assembled and deburred machined parts

General Laborer

July 2021 – December 2022

Krueger International, Bonduel, WI

- Operated a heat press to bond laminate and backer to core board
- Maintained an organized and clean workspace
